Welcome Message

We are pleased to announce that the 14th Asia-Pacific Chitin and Chitosan Symposium (14th APCCS 2025) will be held from August 26 to 29, 2025, at National Taiwan University, Taipei, Taiwan.

It has been many years since Taiwan last hosted this prestigious event in 2009, a symposium that was a resounding accomplishment. The theme of this year's symposium, "Chitin and Chitosan Materials for Good Health, Well-Being, and Sustainability," will cover a wide range of topics, including chitin and chitosan in biotechnology and nanotechnology, industrial and environmental application, medical and food application, and resources and production of chitin and chitosan. It reflects the growing importance of chitin and chitosan in addressing critical global challenges. From healthcare advancements to promoting environmental sustainability, chitin and chitosan have vast potential for innovation and practical application. We look forward to insightful discussions that will explore their contributions to human health, environmental well-being, and the creation of sustainable solutions. This symposium will provide an exceptional platform for academic exchange and collaboration. Participants will be able to engage with leading experts, share cutting-edge research, and attend a series of thoughtfully organized plenary speeches and oral and poster presentations. The organizing committee is also planning various unique social programs, and participants will enjoy fascinating Taiwanese culture and the warm spirit of friendship. We are confident that these interactions will foster new ideas, partnerships, and advancements in the field.

On behalf of Taiwan Society for Chitin and Chitosan, it is our great pleasure and honor to extend you a cordial invitation to the 14th Asia-Pacific Chitin and Chitosan Symposium (14th APCCS). In addition, the 2025 Annual Meeting and Symposium of Taiwan Society for Chitin and Chitosan (TSCC) and 2025 Cross-Strait Chitin and Chitosan Symposium are also jointed. We warmly invite professionals, researchers, and enthusiasts worldwide to join us for this exciting event, and we look forward to your valuable contributions.
